About the Conference

In today's world, the ability to store, manage, and analyze large-scale data generated by humans and machines, has a critical impact on decision-making in every business, scientific discovery, social and environmental challenges. This conference deals with different aspects of data science, efficient data processing, statistical and operations research modeling and large scale computing in business decision making.

The conference provides a forum for researchers, practitioners and academicians to present and discuss the latest innovations, trends, experiences and issues in the field of business analytics, large scale computing and statistical and operations research modeling for decision making. In addition, this summit also focuses on multiple disciplines including healthcare, finance, insurance, banking and market analytics in the form of special sessions. Articles on the themes of the conference are invited for contributory talks.

Topics to be Covered

Business Process Modeling and Solutions	Analytics in Operations and Supply Chain Management
Data Analytics and Data Technologies	Statistical and Operations Research Modeling in Business
Data Acquisition, Integration and Data Mining	-Analytics
Computational Modeling and Data Integration	Inventory Models in Business Decision Making
Algorithms and Systems for Big Data Search	Game Theoretical Application in Business Intelligence
Privacy Preserving in Big Data Collection	Web and Social Media Analytics
Methodologies for Large Scale Computing	Health Care Analytics
Predictive Analytics	Analytics in Banking, Insurance, Marketing

The journal 'Annals of Operations Research' has consented on publishing a special issue dedicated to this conference. All submissions shall go through the standard review process set by the journal. Articles on the theme of the conference, even if not presented, are also invited for possible publication in the special issue.

About MAHE, Manipal

Manipal Academy of Higher Education is synonymous with excellence in higher education. Over 28,000 students from 57 different nations live, learn and play in the sprawling University town, nestled on a plateau in Udupi district of Karnataka. It also has nearly 2500 faculty and almost 10000 other support and service staff, who cater to the various professional institutions in Health Sciences, Engineering, Management, Communication and Humanities which dot the Wi-Fi-enabled campus. The University has off-campus in Mangalore and Bangalore, and off-shore campuses in Dubai (UAE) and Melaka (Malaysia). The Mangalore campus offers medical, dental, and nursing programs. The Bangalore Campus offers programs in Regenerative Medicine. The Dubai campus offers programs in Engineering, Management and Architecture, and the Melaka campus offers programs in Medicine and Dentistry. Every institute has world class facilities and pedagogy, which are constantly reviewed and upgraded to reflect the latest trends and developments in higher education. For more details visit us <https://manipal.edu/>

About CARAMS

CARAMS has been established in September 2018 at MAHE with the objective of fostering advanced research and training in the area of Mathematics, Statistics and their applications. It facilitates the bridging of the gap between Mathematicians/Statisticians and Applied Mathematicians working in the area of Health, Technological, and Social Sciences.
